

BLAST MEDIA DATA SHEET

GUYSON NAME	GUYSTRIP
COMPOSITION / DESCRIPTION	Melamine (thermoset plastic) US type 3 plastic
SHAPE	Jagged/angular
COLOUR	Speckled or Multi-Coloured*
BLAST SYSTEMS	Dry compressed air systems although most effective in pressure blast.
HARDNESS	Mohs 4
TYPICAL APPLICATIONS	Removal of hard deposits and paint. Mould, die and tool cleaning. Deflashing of electronic encapsulations.
SPECIAL NOTES	The hardest and most aggressive thermoset plastic, this product has a slow breakdown rate and effectively bridges the gap between mineral abrasives and natural product based products. When used for cleaning without dimensional change, sharp edges are retained as the hardness of this product is significantly less than that of a tool steel or chromed mould.
H & S DATA SHEET	36
SIZES AVAILABLE	12/16, 16/20, 20/30, 30/40, 40/60
PACK SIZES	25 kg box, 125 kg drum

**colours may vary between different batches*
