

Cooper Bearing Rig

Designed in partnership with British Energy

This Cooper Bearing Rig is manufactured using the following:

- 2 off Aluminium Sub Frames
- 2 off Nylon Replica Pump Shafts
- 4 off Cooper Pillow Block Pedestals
- 4 off 80mm Dia Bearing Cartridges C/W Bearings (2 Fixed, 2 Free)

It can be used to train technicians in the correct set up of Cooper Bearings whilst working with an ergonomically designed rig which minimises manual handling.
