MODEL 500 GUN FOR EUROBLAST RANGE

The Guyson Model 500 gun is now offered for all Euroblast models. Can also be used on Multiblast range.

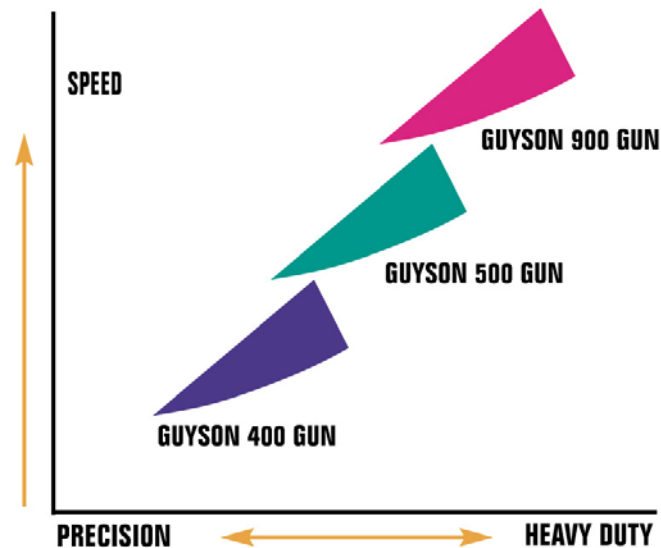

Fitted with an ergonomic grip which helps to reduce operator fatigue thereby increasing productivity. Good all round performance, giving a very even blast coverage without hot spots. Ideally suited for providing overall blast finish to larger components without having to run to the larger air consumption of the Model 900 gun.

Fitted with conventional air and media hositails for easy retrofit adoption into existing Guyson cabinets. Nozzles can be interchanged with similar or competitor units.
